

Mechanical Seal Repair Specialists

With 35 years of expertise in Mechanical Seals Repairs, Robco is your single-source repair specialist to verify, troubleshoot, repair, rebuild, supply parts or replace all types of mechanical seals from all major suppliers and brands. And with our wide array of other sealing, gasketing and lubricating products, simplify your maintenance purchases and lower your purchasing costs. Used in pulp & paper, water treatment, petrochemical, power generation and marine industry to maximize operation efficiency. Repairing Mechanical Seals is key to lowering your Total Cost of Ownership.

Since 1911, Robco products are used everywhere in heavy industry as components of original equipment and in aftermarket maintenance and repair.

ISO 9001 and ISO 14001 Certified, our commitment to focusing on engineered solutions has fostered an alignment between our customers' satisfaction and our success while caring for our environment.

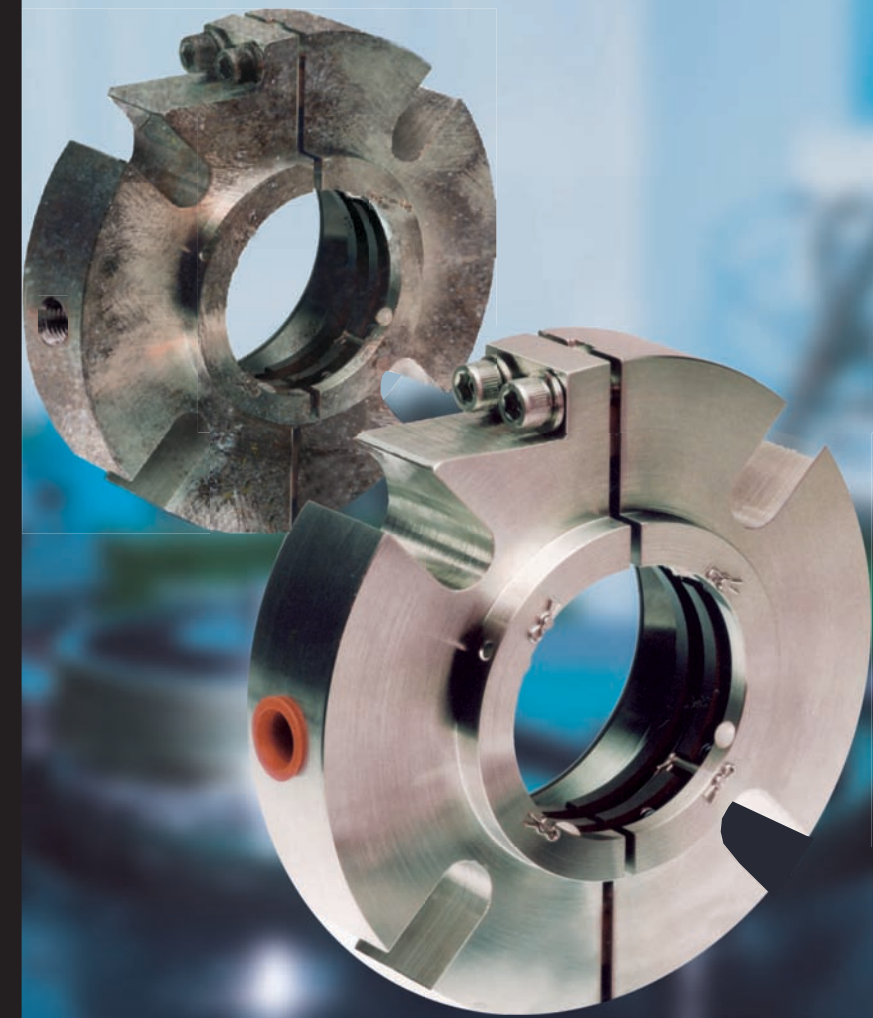

Total Cost of Ownership

Our T.C.O. approach to problem-solving often results in our customers saving substantially more than their total maintenance budgets for the products that we supply.

Repaired in Canada

Robco Mechanical Seal repair work is done at our Mississauga, Ontario facility, thus ensuring quick turnaround times, high quality work and pride in helping Canadian economy.

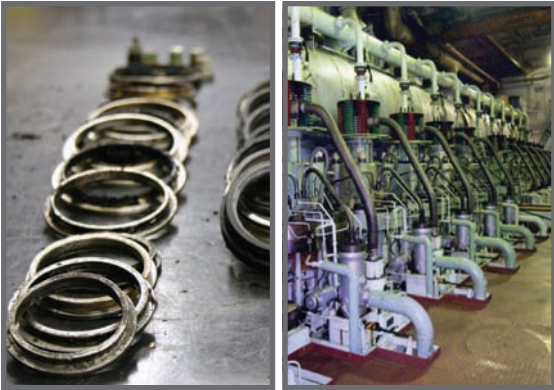

Robco Mechanical Seal Rebuild Program

The value of repairing instead of replacing whenever possible has always been a source of savings and a way to lower the Total Cost of Ownership of your equipment. At Robco, we believe in supplying you with quick, expert service to make your operations as efficient as possible.

Cost-savings on your operations

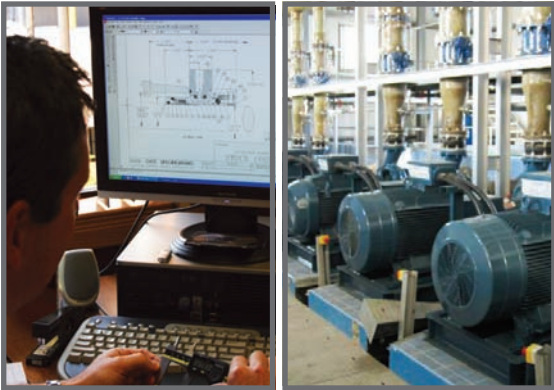

We rebuild all major brands at competitive prices with premium quality parts that meet all OEM specifications.

We offer a free estimate and failure analysis. Rebuild outlay normally varies from 1/3 to 1/2 of the cost of a new seal, so lower your inventory value and reduce your overall operations cost.

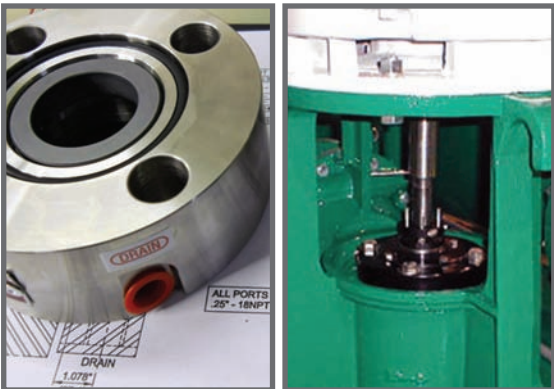

Trust & Expertise

Robco uses specialized equipment to ensure that rebuilt seals operate as well as brand new, with mechanical seal manufacturing & rebuilding experience dating back to 1978., servicing petrochemical, pulp & paper, steel, mining, waste water, utilities, boilers and more... Our Sarnia location is where it all takes place offering quick response and turnaround. Robco technical support is widely available through local representation.

We are making it simple

By centralizing your repairs: Robco rebuilds all major brands in one location, simply fill-out our Seal Repair Form to be enclosed along with your seal shipment and we'll take care of the rest. Returning your seal looking and working like new. Robco tags all rebuilt seals for future rebuild identification, tracking seal life and failure patterns

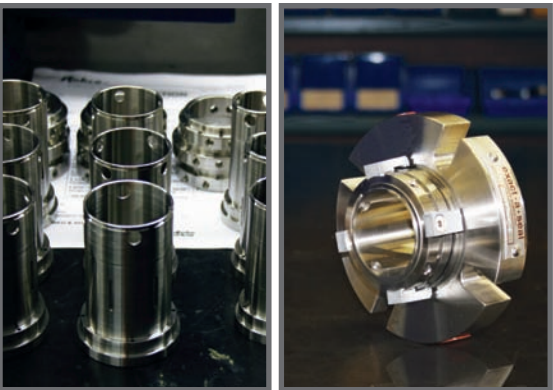

Expert Customer Service
